Drumaslaggy Dispersal

The Drumaslaggy Suffolk flock is and has been managed on a completely commercial basis, with as few man hours as possible. The flock has been managed to get the most out with minimum input relying on grass and the ewe's ability to feed her own lambs. Lambing is natural service with first lambs due normally around 10th January.

The Drumaslaggy flock has been performance recorded for 13 seasons, and is currently the top index recorded flock on the island of Ireland with the 2016 lamb crop average index is within the top 1% EBV of the breed. Since starting recorded we have purchased CT scanned performance recorded rams from the main flocks in England and Scotland.

As a result we have increased muscle depth to +4.09mm now in top 2% EBV of total Suffolk flock, growth at 8 weeks to +5.81kgs again in the top 2% EBV of total Suffolk flock. Using CT recorded sires has reflected in the gigot score of the flock with a 2016 score of 3.42 well inside the top 1% EBV of total Suffolk flock. The maternal side of the flock is perhaps the most important with the 2016 lamb crop showing a maternal ability of 4.25 EBV this year missing out on top 1% EBV by 0.01.

Due to family circumstances, I have decided to completely disperse the sheep enterprise at Drumaslaggy and the flock is offered as a total dispersal, ewes have been scanned to confirm service dates prior to sale entry.

The entire flock is genotype ARR / ARR, only full ARR/ ARR rams have ever been purchased.

Service Sire

All ewes have been served to Derryloman Jaysmith LHY:14:00440, this ram by Drinkstone Top Muscle 12 the ram carries individual growth and muscle figures in the top 1% EBV of the breed.

Sheep are offered for sale coming directly from the field.

Semen for sale

KIRKTON GOLD GLINT: 62H:N105 DOB 15.01.1994 - 30 straws,

We attended the Kirkton Dispersal of JHC Campbell where the ram was offered, the ram was purchased by the Killaire flock of Thomas Killick, and the semen was purchased from Mr Killick.

Gold Glint has 29 registered sons and sold lambs to a top price of 32,000 guineas, this ram swept the boards at Northern area sale in 1995. Our intention was to use this semen on ewe s with an index over 500.
