IMPORTANT NOTICE FOR VENDORS

Scrapie Genotype Certificates: Please have all Scrapie Genotype Certificates available for inspection – these will be checked by the Society Inspectors prior to the show.

Hair Sampling: Please be aware that random & prize winners may be hair sampled for the presence of illegal growth promoters; hair samples will also to be taken to be analysed for artificial colorants. **N.B.** it is most likely that these samples will be taken after the show, from approximately 6.45 p.m. onwards – vendors must be present in their pens until the appointed Veterinary Surgeon has completed collecting these samples.

Export Status: All males entered for this Sale/Show intending for export have to be tested for export. You are reminded to bring with you to the sale the original report from the brucellosis laboratory in Cork with the result of the Brucella Ovis test. You will also need to have your original Scrapie Monitored Certificate for RQ rams. All rams must fulfil a 60-day residency on the holding of origin before export.

Ram Proformas: Should be available on the day of sale, completed and given to the purchaser along with the Scrapie Genotype Cert.

Photography: A photographer will be available immediately after judging on Friday evening and again on the morning of the sale at 8.00am. Prizewinners are asked to have their sheep available.

Straw: Under no circumstance are vendors allowed to bring straw into the Mart premises in 2010. Straw will be provided by the mart.

All rules pertaining to sales are subject to change at the discretion of the Department of Agriculture & Food.

EXPORTS - Special Notices

Overseas buyers and their agents are strongly advised to contact the relevant Ministry/ Department of Agriculture before making a bid for sheep offered at this sale and so make sure the vendor is prepared to sell his sheep subject to veterinary test required for the export. Sheep for export must come from Fully Scrapie Monitored flocks (i.e. at least three years). Owners must remain in charge of their respective lots and assist in marketing and delivery of such stock.

Some lots have had a Brucella Ovis test carried out prior to sale and comply with the current rules for export – “Sheep coming from a Scrapie Monitored flock of three years duration, accompanied by a certificate from their local District veterinary Office verifying this status. Sheep accompanied by an Owner Declaration relating to the residency and disease status of the animals. Rams having a Brucella Ovis negative test within 30 days of export, accompanied by a copy of the blood report and it must be endorsed by the Veterinary surgeon who sampled the sheep. In the case of sheep adhering to the export requirements and having the relevant export documentation carried out on the day of sale by the Department Veterinary representative – they will be free to travel immediately from the sales yard.

Probationary Scrapie Monitored sheep are from flocks which have been participating in the Department of Agriculture Scrapie Monitored Scheme for less than three years and therefore cannot at this time sell for export. The progeny of flocks in either category may be considered safe and free of the disease “Scrapie”.

SCRAPIE GENOTYPING

The Suffolk is the only breed to provide significant Scrapie resistance within the national flock. Already a massive 92% of Suffolks have totally or predominantly resistant genotypes. The Suffolk is in a stronger position than many breeds because its genetic resistance to Scrapie is relatively simple to improve through breeding. Many individual members have invested heavily in ensuring their flocks are 100% Scrapie resistant. Susceptibility can be determined, by using a simple blood test that reveals the sheep’s genotypes. Research shows there are three places in the genotype where variations occur, known as codons. Codon 136, 154 and 171. The Suffolk breed only varies on codon 171. Therefore they are either Scrapie resistant “RR”; have some resistance “RQ” or are susceptible “QQ”. In contrast many other breeds have variations on all three codons.

All sheep at this sale have been Scrapie Genotyped - only those testing “RR” or “RQ” will be eligible for sale. Most sheep have their test results printed in the catalogue - those still awaiting results at the time of print will have them on the day of sale - all prospective purchasers are strongly advised to check the Genotype of any sheep before making a bid in order to avoid disappointment.

**Sale will run in Catalogue order – one ring only.
All Sheep must be penned by 2.00pm on Friday 6th.
Judging Friday 6th at 4.00pm Sale Saturday 7th.
Selling times: 11.00am Ewes & Ewe Lambs
Rams & Ram Lambs immediately afterwards**

SHOW AND JUDGING ORDER

Sheep eligible for Championship classes are as follows:

Females: 1st & 2nd Prize-winners in classes 1 & 2

Males: 1st & 2nd Prize-winners in classes 3, 4, 5 & 6 and one sheep from the winning group of three sheep (provided that it has not been shown in classes 3, 4, 5 & 6. Should the number of entries in any of the above classes fail to exceed three, it will be left to the decision of the Judge to recommend the prize and prizes to be awarded in such cases. Should any animal exhibited be withdrawn from the sale, it will forfeit any prize won and such prize will be awarded to the next in order of merit.

JUDGE: Major C. Proctor, Mains of Tullo, Turriff, Aberdeenshire

INSPECTORS: Greg Rossiter, Richard Moore, Michael Clarke, Edward Jeffery, Willie Gleeson

STEWARDS: Willie Gleeson, Richard Moore, Jim Jeffery, Greg Rossiter, Michael Clarke, Edward Jeffery.

AUCTIONEER: Mr. George Chandler

RAM FERTILITY GUARANTEE

1. All rams and ram lambs sold at the Sale are warranted by the vendor to be capable of natural and effective service by 7th October of the year of Sale (“the Male Guarantee Period”). Provided always that:
 - a. any animal which is not so capable and where the incapacity is caused or contributed to by injury or illness howsoever caused, suffered or contracted after the Sale is not covered by the warranty; and
 - b. any animal which has not been conclusively determined as incapable of natural and effective service in accordance with the procedure set out hereinafter and which dies of natural causes during the Male Guarantee Period is not covered by the warranty.
2. An animal shall be deemed incapable of natural and effective service if:
 - a. It fails to make at least one ewe pregnant during the Male Guarantee Period under natural breeding conditions; and
 - b. It is certified as being so incapable by a veterinary surgeon in accordance with clauses 4 and 5 below. “Natural breeding conditions” means when a ram is run with ewes in normal breeding condition, cycling without artificial interference. Ewes which have been sponged and/or treated with hormones to induce or synchronise ovulation are deemed not to be in normal breeding condition.
3. The purchaser shall throughout the Male Guarantee Period give the animal full and sufficient opportunity to prove that he is capable of natural and effective service and maintain him in a fit condition.
4. If the purchaser avers that the ram or ram lamb has failed to prove himself capable of natural and effective service by 12th September of the year of the Sale, the purchaser shall then by 20th September of the year of the Sale:
 - a. Notify the seller in writing that the animal is to be tested; and
 - b. Have the animal subjected to a semen test by the artificial vagina method by a veterinary surgeon attached to a breeding company authorised by the Society; and
 - c. Obtain from the veterinary surgeon a duly completed Soundness for Breeding report in the form issued by the Society from time to time; and (If the veterinary surgeon certifies that the animal is incapable of natural and Effective service) lodge a copy of the Report with the vendor.
5. The vendor shall be entitled to have a second test carried out by the same or a different veterinary surgeon attached to a breeding company authorised by the Society who shall issue a Soundness for Breeding report by 6th October of the year of the Sale, and such Report shall conclusively determine whether or not the animal is capable of natural and effective service. The vendor shall deliver to the purchaser a copy of this second Report by 12th October of the year of the Sale. The purchaser shall at the expense of the vendor do all acts, deeds and things necessary to enable the second test to be carried out. If the animal shall be deemed fertile, the purchaser shall on demand repay the vendor the veterinary surgeon fees of the second test and Report.
6. If the ram is deemed incapable of natural and effective service during the Male Guarantee Period, the purchaser may by 31st October of the year of the Sale return the animal to the vendor and thereupon the vendor shall repay to the purchaser the whole of the purchase price and cost of transport of the animal from the purchaser’s premises to the vendor’s premises and the veterinary surgeon testing fees incurred by the purchaser.
7. The vendor shall not be liable for any indirect or consequential loss howsoever sustained by a purchaser.
8. As to clauses 4 and 5 and 6 time is of the essence.
9. Any variation by a vendor and purchaser of any of the Conditions set in this Section 2 shall be in writing and signed by each of the parties.

The terms of any statutory enactment or custom or trade which are inconsistent with the provisions of this Section 2 are hereby excluded.

CONDITIONS OF SALE - ROSCREA 2011

- 1 Without prejudice to the foregoing rules it is hereby expressly declared that the seller by selling and the buyer by purchasing shall be bound by the rules notwithstanding the terms of any statutory enactment or custom or trade to the contrary.
- 2 The auctioneer is judge of the sale to whom all disputes or differences of any kind which may arise at or in relation to the auction either between the seller and the buyer or amongst the bidders themselves shall be referred and his decision shall be final and binding on all parties.
- 3 Any dispute as to any matter of the settlement of which no provision was made in these rules shall be referred to an arbitrator to be appointed failing agreement between or amongst the parties by the auctioneers and the decision of the arbitrator so appointed shall be final and binding on all parties to the dispute. Any arbitrator under this clause shall be subject to the Arbitration Act for the time being in force.
- 4 The Highest bidder to be the purchaser, subject to rule 7, and if any dispute shall arise between two or more bidders, the lot in dispute to be put up again and re-sold or the auctioneers may declare the purchaser.
- 5 Purchasers to give their names and places of abode and pay a deposit of 20% in part payment of each lot, or the whole of the purchase money, immediately upon the fall of the hammer if required.
- 6 All lots to be cleared away at the buyer's expense at the close of sale, to be risk of the purchaser from the time the lot is sold: and to be taken with all faults and errors of description.
- 7 Purchasers at this sale, not complying with the above conditions, will be subject, without further notice, to have their lots re-sold, either by public auction or by private contract: the deposit money will be forfeited, and any deficiency, with all expenses attending such re-sale, to be made good by the defaulters on demand.
- 8 Rams and ewes to be sold in euros plus 5% commission. No rams or ram lambs to be sold at less than €300. Ewe/Ewe lambs €200. No bid under €10.
- 9 Any sheep having artificially blackened heads or coloured fleeces will be disqualified.
- 10 Any sheep found to have a positive blood test for prohibitive substances will be disqualified and dealt with by the disciplinary committee.
- 11 All sheep will be sold in order in which they appear in Catalogue.
- 12 A red dot must be clearly marked on the shoulder of all substitute sheep.
- 13 **All lots are "on the market" from the 1st bid. When the auctioneer's hammer falls, the vendor may refuse or accept the final bid. A vendor must say "yes" or "no" to the final bid before he/she leaves the ring or he/she does not respond on the fall of the hammer this will be regarded as a "Yes" and that animal will be taken as sold. No change from this will be entertained.**
- 14 **2% levy will be charged to all vendors by the Suffolk Sheep Society on all lots/sheep sold at this sale. Roscrea Mart will make this deduction on the day.**

E&OE

Conditions of Entry

All sheep entered for Show & Sale must be the produce of registered flocks, the property of a member of the Suffolk Sheep Society. Flock numbers, individual ear marks & numbers of any sires mentioned must be stated on the Entry Form. All Shearling Rams & Ewes must have been shorn in 2010. **Breeders have the option to shear-out their lambs.** Any sheep having artificially blackened heads, coloured fleeces or bearing tar or pitch will be disqualified. **It is possible that forensic tests could be carried out on hair samples from one sheep from every pen.** If it is found that any form of artificial colouring has been used on any animal tested then the vendor will be instructed to remove his entire consignment from the sale yard. Owners of up to twenty breeding Ewes (i.e. a ewe of at least 2 years of age) in the Flock Book are allowed to send a maximum of two entries in Ram Section, & owners of over that number, one entry for each additional ten or part of ten ewes. Eight to be the maximum entry of Rams by one Breeder as heretofore, of which only three may be Shearling Rams with each breeder's entry of Ram lambs to be sold in two ballots. Members who are not three years registered can only enter two Rams or Ram Lambs.
