## MESSAGE FROM OUR MAIN SPONSOR

WELCOME TO

Rapid Project Development is proud and privileged to continue our support of the 2023 Aberdeen Christmas Classic. As a local indePENdent steel fabrication and construction company, specializing in all types of agricultural buildings and associated works, it is a great pleasure to be involved in such an important and significant event in the agricultural calendar.

Our family business was originally founded by Paul Duxbury, joined by his sons, providing a turn-key solution for all construction projects.

The business is now headed by brothers, John-Paul and James Duxbury, who are in charge of all of the company's projects with John-Paul looking after design, planning, sales and steel fabrication and James overseeing site works, concrete and construction works.

Our aim is to provide client satisfaction and value for money, the essential requirements needed to continue the success and growth of the business.

Many farmers, customers and friends, will know of us, but for those who don't, we provide a one-stop solution for all agricultural building requirements, looking after everything and endeavouring to help with problem solving with our clients.

It also helps that our sister company RPD Scotland Ltd is involved in arable, livestock and renewables. This gives us a wealth of practical experience when it comes to advising on and providing buildings and services for our clients. The farm unit produces renewable energy which supplies electricity and heat for Rapid's fabrication facility.

Looking forward to this years Christmas Classic itself, we would like to thank ANM Group and all the entrants for their work and dedication in preparing for the event. Without this effort there would not be a Christmas Classic.

For those of you visiting, we hope you have an enjoyable time at Thainstone and we look forward to meeting and speaking with you over the two days.

John-Paul Duxbury  
Managing Director  
Rapid Project Development

## Quality Meat Scotland (QMS)

QMS is the public body responsible for promoting the UK GI labelled Scotch Beef and Scotch Lamb brands in the UK and abroad, and for promoting Scottish pork products under the Specially Selected Pork logo.

QMS also helps the Scottish red meat sector improve its sustainability, efficiency and profitability and maximise its contribution to Scotland's economy. The quality assurance schemes run by QMS cover more than 90% of livestock farmed for red meat in Scotland. They offer consumers in the UK and overseas the legal guarantee that the meat they buy has come from animals that have spent their whole lives being raised to some of the world's strictest welfare standards.

Scotland's beef, lamb and pork producers make an important contribution to the country's economic, social and environmental sustainability, contributing over £2.8 billion to the annual GDP of Scotland and supporting around 39,000 jobs (many in fragile rural areas) in the farming, agricultural supply and processing sectors.

For more information visit [www.qmscotland.co.uk](http://www.qmscotland.co.uk) or follow QMS on Facebook or Twitter.

## **DISCLAIMER**

The pedigree, performance, genomic information stored by the Society in the iTexel database and published on society pedigree certificates, reports and general publications is as supplied by, or on behalf of the breeder. The responsibility for the accuracy of the information therefore rests solely with the breeder and not with the British Texel Sheep Society Ltd (BTSS).

Health information and footnotes that are stored in iTexel and published in sales catalogues produced by the society, is supplied by or on behalf of the vendor. The responsibility for the accuracy of the information therefore rests solely with the vendor and not with the British Texel Sheep Society Ltd (BTSS).

Performance data and breeding values change over time as new data becomes available.

Whilst every effort is made to ensure accuracy of the information contained in society reports and publications, no responsibility can be accepted by the Society for any errors or any reliance on the use of information. No warranty is given in respect thereof by the BTSS and, to the maximum extent permitted by law, the BTSS have no liability for any loss, damage or injury howsoever caused (including that caused by negligence) or suffered directly or indirectly in relation to information and opinions contained or omitted from BTSS publications.

The Texel Sheep Society provides data collection and performance reporting services to its membership. From 2024, the service and evaluation combines pedigree and genomic data to provide indexes that are simple to use and understand.

**In simple terms: higher value = more profit per lamb**

The texelplus economic indexes support the breed’s development with an increased focus on commercial traits and profitability. The **TERMINAL** and **REPLACEMENT INDEXES** reflect the breed’s influence on industry. Both are presented as the potential extra profit per lamb born in a commercial setting, compared to the population baseline.

Index	Average	Top 25%	Top 10%	Top 5%	Top 1%
<b>Terminal</b> Expected change in profit per terminal lamb born	£4.08	£5.33	£6.46	£7.13	£8.40
<b>Replacement</b> Expected change in profit per replacement lamb born	£4.72	£6.10	£7.34	£8.09	£9.48

The **TERMINAL INDEX** supports increased profitability through improving prime lambs and is weighted strongly for meat production. The **REPLACEMENT INDEX** includes additional maternal traits to optimise production of female replacements.

Commercial producers solely producing prime lambs should use the **TERMINAL INDEX** to inform their selection; however, those retaining female replacements should use the **REPLACEMENT INDEX**.

Sub-indexes underpin the indexes to provide more information on the relative values and ranking of animals for growth, fat and muscle weight, and reproduction.

**An example**

**High ranking rams can deliver over £4.50 per lamb more than lower-ranking rams. Over a ram’s working lifetime, this is easily worth an extra £690 per ram; generated through shorter finish times and improved carcass quality.**

## Trait weighting

Different emphases are given to individual traits between the terminal and replacement indexes. This results in different sub-index ranks.

## Growth sub-index

Captures the benefit from growth using eight-week weight and scan weight information. Faster growth is more advantageous.

## Muscle weight sub-index

How an animal ranks for muscle weight in the carcass. Encourages muscle growth.

## Fat weight sub-index

How an animal ranks for fat weight in the carcass. Encourages fat cover.

## Reproduction sub-index

The commercial benefit of lambing ease, litter size and maternal ability. Promotes optimum litter sizes and better mothers.

## Accuracy

A measure of the accuracy of the index. The higher the number the better.

## Index values

The sum of the sub-index values and potential profit per lamb born for terminal and replacement production.

## Ranking

Where the animal ranks in the population.

# FOREWARD

Breddie's Flock first established in 1994. Bought first Gimmers at the Christmas Classic at Thainstone from Strathbogie and Muirestk. The first tups that left their stock in Breddie's flock were Annan Diaden, Glenside Drum Major and Baltier Winston. In later years also at Thainstone have bought Gimmers from Knock, Milnbank, Deveronvale and Hilltop. In the last few years have bought or Al'd with Hullhouse Texas Cowboy Knap AK47, Knockyards Elderado and Breddies Gold Star. This year a good few Ewes and Gimmers are in lamb to Saddlerhead Fury who has bred tups to 30K, 12K and 7K.

We are one of the North-East of Scotland's leading independent construction and development companies.

With more than 40 years' experience in farm buildings and commercial development, and thousands of satisfied customers, we are ideally placed to meet the building needs of both farmers and industrial businesses throughout Scotland.

Rapid Project Development Ltd (RPD), have been extremely busy and continuously expanding over the past 10 years with more and more projects requiring a supplier who can give a "one-stop" solution.

This is something which we have delivered on many projects without sacrificing our reputation for timeous delivery, speedy erection and quality finish.

Careful pre-planning, a highly skilled staff and investment in the right equipment to do the job are the pre-requisites which have earned the business its well deserved reputation of reliability and efficiency.

We know that every project is different and pride ourselves in providing a package tailored to your individual requirements.
